

LAST FEW PLACES - LAST FEW PLACES - LAST FEW PLACES

Free Technical Seminar & Lunch

Windows 7 Best Practice Deployment Methods and Windows Server 2008 Technologies

14th December 2010, The Oldham College Business Centre

Pennine House, 77 Union Street, Oldham, OL1 1JZ, T: 0800 032 7288

Prepare your Network for the future and meet local peers at a seminar for Network Managers dedicated to Microsoft's latest technology.

Join us at a seminar for IT Technicians and Network Managers to gain valuable insight into some of the hidden features of Windows Server 2008 R2 including MDT 2010, NPS & NAP and to look into associated components including Hyper-V and Remote Desktop Services and Remote Applications. The morning also includes a section on best practice deployment methods for Windows 7 using MDT 2010 presented by our *Technical Director James Prendergast* who earlier in the year joined forces with [Microsoft](#) to present a highly popular series of Live Meetings on the subject.

Arrive from 9am	
9:30	Microsoft Server 2008 R2 Features and Benefits including NPS and NAP and Media Services Remote Applications RDS – Remote Desktop Services

12:45	Data Protection Server DPM 2010 is part of the System Centre family of management products, delivering unified data protection for Windows servers -- as well as Windows desktops and laptops.
13:30	Buffet Lunch & Open Discussion

Design and Management Systems Ltd (DMS) takes a technical approach to its seminars which have been run across the country this year to critical acclaim from network managers and technical staff. We believe the content is invaluable to any school or college looking to deploy **Windows 7**, migrate to **Windows Server 2008 R2** or considering the now essential way to back up data using **Microsoft Data Protection Manager**.

There will also be an overview of our own Network Management Solution [DMS NetFlow](#), a powerful tool - fully compatible with Windows 7 and Server 2008 - for managing users and groups on the network.

We want the day to be flexible and encourage questions and interaction throughout the sessions. We will happily deviate from the programme to take questions on any other network issues that are of concern to you.

The seminar and lunch is completely free but, to help catering and planning, you must reserve a place. If you and/or a colleague would like to join us, please respond to this email or call the office on **01322 518329**.

We look forward to hearing from you.
